Nepali Summer Course 2018

The Nepali summer course at Heidelberg provides a great chance to learn and practice Nepali in a lively format. A special feature of this course is that students are encouraged from the very first day to speak only Nepali.

The focus will be on the application of the acquired skills in real-life contexts and will involve practical exercises such as dialogue-training, rehearsing Nepali songs, and more. The course thus teaches the skills that are necessary for a genuine engagement with Nepalese culture, required for example in the context of fieldwork-related research, work in NGOs, but also of great use during personal vacations.

- Basic knowledge of Nepali advantageous

Course Instructor: Laxmi Nath Shrestha

Organized by

Research Unit “Documents on the History of Religion and Law in Premodern Nepal”, HAdW

and

Department of Cultural and Religious History of South Asia, South Asia Institute, Heidelberg
