Science and Society in the Sanskrit World

Editors: Christopher T. Fleming, Toke Lindegaard Knudsen, Anuj Misra, and Vishal Sharma

Science and Society in the Sanskrit World contains seventeen essays that cover a kaleidoscopic array of classical Sanskrit scientific disciplines, such as the astral sciences, grammar, jurisprudence, theology, and hermeneutics. The volume foregrounds a unifying theme to Christopher Z. Minkowski's intellectual oeuvre: that scholars' scientific endeavors are inseparable from the social worlds that shaped those scholars' lives.

Contributors are: Anne Blackburn, Johannes Bronkhorst, Jonathan Duquette, Robert Goldman, Setsuro Ikeyama, Stephanie Jamison, Takanori Kusuba, John Lowe, Clemency Montelle, Valters Negribs, Rosalind O'Hanlon, Patrick Olivelle, Deven Patel, Kim Plofker, Frederick Smith, Barbora Sojkova, Thomas Trautmann, Elizabeth Tucker, Anand Venkatkrishnan, and Dominik Wujastyk.
