What you can do with Svarupa

- ♦ **Start with what matters to you.** Begin with a question, or a theme such as peace, purpose, devotion or meditation, and find the verses that speak to it.
- ♦ **Understand any verse simply.** See what it means in plain words, its deeper meaning, why it was given and how it is used in prayer and daily practice.
- ♦ **Learn from the great teachers.** Read how sages and teachers such as Ādi Śaṅkarācārya, Rāmānuja, Swami Chinmayananda and Swami Śivānanda explained the same verse, side by side.
- ♦ **Listen and chant.** Hear authentic recordings of Vedic chanting, and have meanings read aloud while you walk, rest or meditate.
- ♦ **Read in your language.** Explanations are available in English, 8 Indian languages and 3 international languages.
- ♦ **Grow at your own pace.** Short introductions and deeper articles let you go as far as you wish. When you are ready, word-by-word Sanskrit and study tools are there too.

Why you can trust it

- ♦ **Checked by people, not just machines.** Every scripture is verified by hand against respected printed editions.
- ♦ **Careful AI.** Two AI models write each explanation, a third checks them, and people review the results.
- ♦ **Always clear about the source.** You can always tell the original scripture from a teacher’s commentary and from an AI explanation.
